We need a river cleanup plan that supports our environment and our economy.

Too many times it seems like major decisions are made by government officials whose teams never don't the level of research necessary for a truly successful strategy. Please take the time to get the whole story.

Please know that so many important jobs in Portland are tied to the Willamette River. I support a river cleanup but I'm worried that the plan will be so inflexible and expensive that it will drive out small businesses.

Please support the harbor jobs that are good for our community and our economy.

Sincerely,
